CELEBRATING 15 YEARS AT SOFA: A NEW LOOK

Aaron Faber Gallery, specialist in 20th and 21st century jewelry design, debuts a special in-booth one-man gallery presentation focused on the contemporary studio jewelry of **Juha Koskela** of Finland at this year's SOFA NYC. Koskela's work is sculptural, in the tradition of Scandinavian modernist jewelry, yet clearly post-Modernist in his affinity for surface patterning and forms abstracted from nature rather than geometry.

Koskela's collection of 40 works includes large sculptural bracelets, necklaces and rings in sterling silver, as well as his unique works incorporating mokume gane. Mokume gane, meaning 'wood grain pattern' is a traditional Japanese metalsmithing technique that Koskela has completely re-interpreted for a modern audience.

Joining Koskela at the Aaron Faber booth 312 will be:

Peter Schmid from Atelier Zobel in Germany who will be presenting his one-of-a-kind jewels

Master metalsmith **So Young Park** with her collection of repoussé and keum-boo jewelry

In addition, collections of new work by the following artists will be highlighted as well at SOFA NYC:

Glenda Arentzen (USA) •**Marco Borghesi** (Italy) • **Michael Boyd** (USA)

Arata Fuchi (Italy) • **Barbara Heinrich** (USA) • **Angela Hubel** (Germany)

Bernd, Tom & Jutta Munsteiner (Germany) • **Tod Pardon** (USA)
